

UTILITRA

HYDRO + AIR KNIFE EXCAVATION SERVICES

YOUR
FORMULA
FOR BETTER BUSINESS

DIFFERENTIATORS

- Safe Performance
- Superb Customer Service
- Flexible Approach
- Transparency with Bids
- Emergency Response

Hydro-excavation services use pressurized water to break up surfaces in combination with an industrial strength vacuum to remove spoils. This method is precise and reduces the risk of damaging existing underground utilities.

CORE COMPETENCIES

- Utility Exploration / Pot Holing
- Trenching & Excavation
- Service / Tie-In Pits

- Foundation & Pole Excavation
- Debris Removal

COMPANY DATA

- Over 250 Employees
- Licensed in 16 States
- 3 office locations in the Midwest
- EMR 0.64
- Union Labor
- NAICS 238910

PAST PERFORMANCE

- Fuel Pipeline: Foundation and utility trench excavation
- Utility Power Plant: Emergency excavation for leak detection
- Municipal Utility Locating
- Underground Electric Installation
- Underground Gas Installation
- Underground Communications Installation
